DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Aho'196.

The Aho'196 teaches that it is known in the art to make and use composition comprising the claimed elements to coat a paper. See abstract, column 3, lines 1-40.

The applied reference does not specifically teach imide component or the claimed ranges of the components in the composition.

However, it would have been obvious to one having ordinary skill in the art at the time of the invention to optimize the amounts of the components in the composition as well as include well known imides in such composition since such would improve barrier and processing properties of the composition.

The amendments and remarks submitted by Applicants in their last response have been fully considered. The claims, however, remain unpatentable in view of the prior art of record. Arguments have not been found persuasive. The examiner believes that the rejections are still proper and are maintained.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
